Department of Zoology, Deshbandhu College, University of Delhi, New Delhi, India

Under the aegis of DBT Star College Scheme & IQAC

We cordially invite you to participate in the 2nd International Conference on Natural Products and Human Health-2022 to be held in Deshbandhu College, University of Delhi. The conference is being organized by the Department of Zoology, Deshbandhu College in association with Delhi Pharmaceutical Sciences and Research University, India; Sikkim Manipal University, India; National Institute of Tuberculosis and Respiratory Diseases, New Delhi, India; and International Co-hosts including World Union for Herbal Drug Discovery (WUHeDD), Walailak University, Thailand; Pasteur Institute of Epidemiology and Microbiology, Russia; Asia Pacific Consortium of Researchers and Educators (APCORE), Philippines; University of Aveiro, Portugal; Padre Albino University Center, Catanduva-SP, Brazil; and UCSI University, Kuala Lumpur, Malaysia. This conference aims to promote scientific network, research and training collaboration among experts from all over the world in the field of natural products and human health. During the conference, academicians, researchers, scientists, students, corporate world stalwarts, economists, environmentalists, industrialists, clinicians, educationists, and researchers in the field of social science education and research in health from India and abroad will get a chance to exchange and explore new ideas in medicine, natural products, and human health. The conference is also open to industry personnel to showcase their products and developments. Besides invited talks of stalwarts and plenary keynote speakers, there shall be both oral and poster presentations of contributed research papers. We are looking forward for your relevant presence.

Theme and Sections

Recent Advances and Challenges in Human Health Research

Section A: Natural Products and Disease Management

1. Natural products and anti-microbial resistance (AMR) related to human, veterinary and environmental health
2. Natural products in infectious diseases

Section B: Natural Products and Immune Response

1. Natural product and chronic inflammation
2. Natural products and immune related disorders
3. Natural products as immunity boosters
4. Natural products and non-infectious diseases
5. Natural products and lifestyle diseases

Section C: Recent Advances and Disease Management

1. Informatics and computational methods in natural product and drug discovery
2. Advances and opportunities in drug discovery
3. Artificial intelligence in digital era to tackle the health challenges
4. Scope for infectious disease management in the present digital era
5. Pandemic preparedness
6. Applicable solutions for limited resource settings in public health system for infection prevention, control and management
7. Pollution and health related challenges

Section D: AYUSH and Health

1. Yoga in human health
2. Ayurvedic and homeopathic system of medicine
3. Unani and siddha medicine

Section E: Advances and Challenges in Herbal Research

1. Herbal therapeutics for COVID-19 infection
2. Natural product abuse prevention and management

Section F: Nanotechnology and Herbal Research

1. Influence of nanotechnology on herbal drugs
2. Nanotechnology as novel drug delivery system
3. Nano pharmaceuticals

Section G: OMICs in Herbal Research Application

1. Genomics
2. Transcriptomics
3. Proteomics
4. Metabolomics

Section H: Social Science Education and Research in Health

1. Social factors and community health
2. Health equity
3. Mental health
4. Social determinants of health
5. Early childhood development for a healthy society
6. Community involvement and health
7. Modelling and systemic approach in health

About Deshbandhu College

Deshbandhu College, established in 1952 is the oldest and the largest co-educational institution in South Delhi, and promotes Arts, Commerce and Science courses. The college offers seven post graduate and eighteen undergraduate courses in disciplines ranging from languages/literature, History, Political Science, Economics, Commerce and all major branches of Sciences and Mathematics. It caters more than 5000 students every year. Presently, it has been ranked 28th in NIRF ranking in India. The sprawling campus of Deshbandhu college, with its lawns, gardens and playground provides a healthy environment for all round development of the generations to come. The campus is dotted with an administrative block, Dr. B.R. Ambedkar block, Dr. A.P.J. Abdul Kalam block, Swami Vivekananda auditorium, a huge library, newly developed extension of science block with all state-of-art facilities, conference hall, lecture theaters, well-equipped laboratories, together with students common rooms, gymnasium, canteen, photocopy facility, web access center, medical room, banking facility, a seminar hall and a botanical garden.

The newly developed biodiversity park and i4 - center for research and training are other

additional state-of-art facilities in the college. The college has fully functional research laboratories to pursue Doctoral and Post Doctoral research. Recently, in 2018, the Department of Physics organized a successful International Conference, with a participation of more than 400, and in 2020, the department of Zoology organized a national-level conference on Insect pest interaction, and an International Conference on Natural Products and Human Health with a participation of more than 200 and 350 respectively. At the international conference, people from Cambodia, Malaysia, Philippines, Portugal, Russia, Thailand, and various states of India participated. An online international conference on Cancer Biology was also organized in 2021 by the Department of Zoology.
